# ALUMNI NEWS

1931

Kenneth A. Lynn, B.C.E., is working for A. E. Kimberly, Columbus, Ohio, doing general sanitary engineering work. He lives at 64 W. Lane Avenue, Columbus, Ohio.

W. E. Burroughs, B.C.E., is in the bridge bureau of the Ohio Highway Department. A heavy program of winter construction is in prospect.

I. T. Fenneman, B.C.E., is an engineer in the service of a sanitary engineering firm at Lima, Ohio. He may be addressed there at 421 Nye St.

M. E. Hitchcock, B.C.E., has been seriously ill with pneumonia at Newark, N. J., where he is in the employ of the Koppers Construction Company.

F. C. Redick, B.C.E., is inspector of materials for the Ohio Highway Department and lives in Columbus.

H. H. Slater, B.C.E., has left the employ of the New York Central Lines and is assistant to the county engineer of Wayne County with headquarters at Wooster, Ohio.

Dick Stearns, B.C.E., reports cotton picking in full blast. He is working for the United Gas Company with headquarters at Lake Charles, La. His work takes him over a large part of the state and he finds it very interesting. According to his letter of October 4, his residence is 625 Iris St., Lake Charles.

John M. Dzuro, B.C.E., is attending the Presbyterian Theological Seminary at Chicago, Illinois. He may be addressed 2330 Halstead St., Chicago, Ill.

John R. Morris, B.C.E., and Max Woodall, B.C.E., are in Marietta with the Corps of Engineers, U. S. Army.

Millard Mettle, B.C.E., is on inspection work at Charleston, West Virginia, with headquarters in the Huntington office of the Army Engineers.

R. B. Hindman, B.C.E., is chief of a surveying party on the Kanawha River out of the Huntington, W. Va., office of the Corps of Engineers, U. S. Army.

John G. Joslin, B.C.E., spent two months at Belleville, Ohio, on engineering work in connection with dredging on the Ohio River. He may be reached through the Huntington office of the Army Engineers.

F. C. Liles, B.C.E., was working on the Kanawha River improvement but was called home by the illness of his father at Sandusky, Ohio, R.F.D. 2.

Charles V. Parker, B.C.E., is working for the Pennsylvania State Highway Department and can be reached at 305 Main St., Phoenixville, Pa.

E. R. Hutchinson, B.C.E., is working for the County Engineer at Lancaster, Ohio.

A. F. Kleinhenz, B.C.E., is working for his father and may be addressed at 518 West Jackson St., St. Marys, Ohio.

Mark Allen, B.C.E., is in the Huntington, West Virginia, office of the Army Engineers, working on the

Kanawha River improvement for navigation. New dams and locks of a remarkable type are being constructed on this river, and the work is reported as exceedingly interesting. John R. Martin and Paul Hegler are in the same office working on the same project.

A. G. Olmsted, B.C.E., is at Catlettsburg, Kentucky, as an engineering assistant on Ohio River work with the Army Engineers.

T. L. Faulkner, Cer.Eng., is now employed as a ceramic engineer for the Edgar Plastic Kaolin Co., the largest producers of Florida and Georgia clays in America. Mr. Faulkner worked on a cooperative scholarship between the Engineering Experiment Station and the company. Since his advancement to a full-time position, Paul G. Herold, Cer.Eng., '31, has taken over the scholarship.

S. J. McDowell, Cer.Eng., is now the superintendent of the Corning Terra Cotta Co. He will be on the campus frequently during the next three months in connection with a thesis for the professional degree in ceramic engineering. R. O. Lane, Cer.Eng., '30, who is now with the Norton Co., Wooster, Massachusetts, has just issued a copy of "Ceramic Slips," a departmental circular containing news of recent graduates in ceramics. It is proposed to issue these quarterly, and alumni of the department are cooperating in its preparation and publication.

H. H. Holscher, Ph.D., is now with the Edison General Electric Appliance Co. of Chicago.

A. M. Greaves-Walker, M.S., is with the Libby-Owens-Ford Glass Co., Toledo.

Karl Schwartzwalder, M.S., is with the A. C. Sparkplug Co., Flint, Michigan.

H. W. Thiemecke, M.S., is with the Westinghouse Electric and Manufacturing Co., at Derry, Pennsylvania.

The men who completed the four-year course in Ceramic Engineering in 1931 are located as follows:

D. R. Baker, Metropolitan Paving Brick Co., Canton, Ohio.

F. M. Edwards, Robinson Clay Products Co., Akron, Ohio.

W. B. Hays, Davidson Enamel Co., Connersville, Indiana.

R. W. Hopkins, Owens Illinois Glass Co., Charleston, West Virginia.

W. M. Pearch, Standard Tile Co., Anderson, Indiana.

C. E. Rudin, A. O. Smith Co., Milwaukee, Wisconsin.

The following graduates of the class of 1931 are now in the graduate school:

Paul G. Herold

Paul R. Jones

M. H. Waldschmidt

1930

Charles O. Dewson, B.C.E., was married to Miss Doris Smith, August 24, 1931.

1929

E. G. Fenton, B.C.E., was a recent caller at Brown Hall. He is on the Engineering Corps of the Pennsylvania Railroad at Mt. Morris, New York.

1928

Maurice Lubin, B.C.E., may be addressed at 162 West 4th St., New York City.

Thorald Mebs, B.C.E., may be addressed at 349 Thurman Avenue, Columbus, Ohio.

R. A. Borntreger, B.C.E., during the summer was working as Construction Superintendent for the S. S. Kresge Company. His address was 842 Seventh St., LaSalle, Ill.

1927

H. E. Bohmer, B.C.E., is still working in the reinforced concrete engineering department of the Truscon Steel Company in Cleveland. He lives at 3636 W. 32nd Street.

1925

W. L. Anderson, B.C.E., writes from 2115 F St. N.W., Washington, D. C., where he lives. He is engineer in the construction department of the Southern Railway.

J. W. D. Bebout, B.C.E., was a caller on the campus during the summer. He is back from Shanghai, China, where he worked for the Texas Oil Company for two years and is a visitor at his home town Logan, Ohio.

Raymond Sperr, B.C.E., is a consulting engineer engaged in Reinforcing Steel Service. He may be reached at 24 Brighton Road, Columbus, Ohio.

Charles H. Woodruff, B.C.E., is an office engineer in the main office of the Van Sweringens in Cleveland.

1924

H. R. Carle, B.C.E., was a caller on the campus during the summer. He lives at 632 Highland Place, Bellevue, Pa., and works in the engineering department of the Fort Pitt Bridge Company. Business has been very good up to the present writing there.

Mr. Thomas Edward Dodds, B.M.E., is with the U. S. Aluminum Company as assistant to the chief engineer at Massena, New York.

1920

Ross W. Shoemaker, B.C.E., was a caller on the campus during the summer. He is engineer for the Thompson Starratt Company in New York City and has been kept very busy there due to reduction in forces.

H. F. Stolz, B.C.E., is an engineer in the Louisville Sewerage Commission at Louisville, Kentucky.

R. E. van Horn, B.C.E., has offices in Room 701, U. B. Annex, Dayton, Ohio.

1919

Fay A. Dun, B.M.E., has been transferred to the Barberton, Ohio, plant of the Fuller Lehigh Company.

## ALUMNI NEWS

(Continued from Page 17)

1918

E. J. Weigand, B.C.E., was a caller on the campus in October. He is designing engineer of the Louisville Sewerage Commission and reports seventeen million dollar program progressing finely.

1917

J. R. McDermott, B.C.E., District Engineer of the West Virginia Highway Department stationed at Heyser, has an article in the May, 1931, issue of *Roads and Streets* magazine.

C. Ray Sykes, B.C.E., is Division Engineer in the Ohio Highway Department with headquarters at Sidney, Ohio.

Mrs. Martha M. Seegar, wife of Grover C. Seegar, B.C.E., died from an automobile accident in Pennsylvania during the summer. Mrs. Seegar was on a trip with Mr. Seegar and their two sons. She was a native of France but since the World War had lived in Columbus, where her husband is Purchasing Agent for Boyajohn & Barr, Inc.

1916

O. J. Miller, B.C.E., was a caller on the campus during the summer. He is with the Tennessee Electric Power Company at Chattanooga, Tenn.

1915

W. W. Kenkleman, B.C.E., is a practicing civil engineer with offices in Room 8, Sloane Block, Sandusky, Ohio.

F. E. Swineford, B.C.E., is chief engineer of the Ohio Crushed Stone Association and has moved to Columbus. His offices are in the Hartman Building, Corner 3rd and State.

R. B. Siler, B.C.E., has left the employ of the Shell Company in Texas due to the temporary suspension of operations there, according to his former associate, C. K. Bradley, teacher in Indianola Junior High School in Columbus.

1913

D. W. Converse, C.E., may be addressed at 360 Litchfield Road, Akron, Ohio. He has been Principal Assistant Engineer on the A.C.&Y. Railroad for the past seven years, but the force has been disbanded.

1911

A. F. Johnston, C.E., may be addressed at 1122 Fourth St., Sandusky, Ohio.

1910

L. H. Hart, C.E., has been designated by the Michigan State Commissioners to speak before school assemblies, clubs, and other groups in celebration of the George Washington Bicentennial. His addresses are given in costume. Hart may be reached at 23 Williams St., Pontiac, Michigan.

Mr. O. H. Hartman, M.E., is a Consulting Mechanical Engineer. His present address is 523 Hackett Road, Toledo, Ohio.
