## COUNCIL PLANS PROM

Devoting most of their October 13th meeting to plans for "Engineer's Prom", the Engineer's Council definitely "set the ball rolling" to make this year's affair the biggest in its history.

The men's gymnasium is chartered for Friday, December 4, and the committees are directing their attentions towards an outstanding evening on that date.

Due to the fact that there are no other big dances scheduled for this quarter, the council is attempting to get a better band than usual. The committee assigned to this project is composed of Ed Driscoll, chairman, with Edgar Hayden and Robert Reel assisting him.

Bernard Hatten will arrange the program. In charge of ticket sales are Harold Haviland, chairman, Robert Lothes, William Verross, John Moll, and Robert McEwen. Decorations for the gymnasium are in the hands of Carl Freith and Jim Wittenmyer. Publicizing the event are Gordon Inskip, chairman, Lauren Rueger, Roger Ball, and Lewis Hullinger. These committees were appointed by Walter Hendricks, president of the Engineer's Council.
